# EMPOWERING AMERICANS™ SINCE 1852.

As promised by the Declaration of Independence and granted by the Bill of Rights, Americans have been empowered with the freedom and self-reliance to write their stories as they pursue their goals and dreams. For nearly 250 years in the cities, towns and remote corners of our country each story joins the millions of stories that weave the fabric of the American experience.

American gun owners are the everyday heroes who have accepted responsibility for the security of their families and themselves. Theirs are the stories of men and women armed with the discipline, knowledge and skill to guide those they love to choose what is right and always be prepared for whatever comes to face them.

For each, gun ownership is a personal decision and commitment that strengthens them with the confidence to go where they need to go and do what they need to do. Theirs is the independence and freedom to live each day to its fullest and then gather each night, secure in their homes.

These are stories of the American spirit of Independence to be passed on to sons and daughters who will write tomorrow's stories – every day.

**“The GUNSMArts™ series is a great way to get more comfortable and proficient with your gun. You’ll have more fun and be safer by watching these videos.”**
